

Ten Frame Hundred Chart

The image displays a large grid of 100 ten frames, arranged in 10 rows and 10 columns. Each ten frame is a 2x5 grid of boxes. Inside each ten frame, there is a hundred chart, which is a 10x10 grid of small squares. The hundred charts are arranged in a pattern that allows for place value activities, such as identifying tens and ones, or performing simple addition and subtraction. The grid is designed to be used for teaching numeracy skills.
