

I must have stared at it for a while. I mean, it had a really weird look about it — a sad, lost sort of look. Nobody else seemed to notice it was there. Too busy doing beach stuff, I guess.

Naturally, I was intrigued. I decided to investigate.

It sure didn't do much.

It just sat there,

looking out of place.

I was baffled.

The background of the entire page is a collage of technical drawings, diagrams, and text from various sources. On the left, there is a table of atomic numbers and symbols, including entries for Uranium, Plutonium, and Americium. In the center, there are diagrams of mechanical parts and a graph showing pressure variation. On the right, there are diagrams of a person's head and neck, and a table of chemical elements including Thorium, Radium, and Redon. The text is scattered throughout, often overlapping with the diagrams and drawings.
